NEW ARMS AGAINST HITLER

Fuehrer Claims He Sought Only Peace With Britain, France

Danzig Is Ours Forever

—A. HITLER

LONDON, Sept. 19.—The British government in an official statement tonight charged Adolf Hitler's Danzig speech was "full of the crass mis-statements which usually fall from his lips," and asserted "it convicted him before the world."

By LOUIS LOCHNER
Associated Press Staff Writer

DANZIG, Sept. 19.—Adolf Hitler sought to assure France and Great Britain today that he had "no war aims" against them, but declared that Poland as created by the Treaty of Versailles "never again will rise."

He said Germany never would "capitulate" and was prepared for as much as seven years of war if necessary.

In a speech of an hour and 14 minutes, Hitler dwelt at length on what he called his efforts "to bring about friendly relations" with Great Britain and France.

He spoke in the medieval Atrium as the climax of his first visit to Danzig since he gathered the former free city into the Reich.

Hitler declared that Germany and Russia, "instead of being troublemakers, are going to organize peace in the east."

"In the west and south," he asserted, "Germany made important concessions hoping to bring about definite peace in Europe."

"We believe we should have been successful had downright war agitators not always out our efforts."

Hitler said Soviet Russia concurred in his promise that the Poland of the post-Versailles day would not "rise" again. As Europe's "two greatest nations," Russia and Germany are the only ones "entitled to re-establish law and order in eastern Europe."

Referring to British assertions that Germany might last for three years, Hitler said "it will depend upon us if the war lasts that long."

"If it should last three years the word capitulation will not stand at its end, nor will it stand at the end of the fourth, fifth or sixth or seventh year, for they (the Allies) are not facing a Germany of Beismann-Hoeller, the 1914 German chancellor, but a Germany of Frederick the Great."

For what was believed the first time, Hitler publicly stated he does not "want the Ukraine"—the Russian territory which, on the basis of his own book "Mein Kampf," he believed to be the kernel of his own people.

He said he was willing to withdraw from all of Poland except that which belonged to him before the first great war, and he was willing to guarantee France's borders for any period of 10 years or forever.

He may seek to make it appear that responsibility for continuance of the war lies on the Allies' shoulders. But those who say he may want them that if they choose war, Germany is prepared to resist for 10 years, or perhaps some multiple of 10 years.

In the opinion of persons here who should know, it is probable that Hitler himself will not persist in these terms of peace. He will look about for someone, more neutral to do it for him. Premier Mussolini is considered likely to be the man.

Enemy Troops Crush Poland On Two Sides

Poland's Life Ebbs As Aides Flee

CERNAUTI, Rumania, Sept. 19.—Poland's life as a nation ebbed fast last night as government officials, troops and civilians fled by thousands across the Rumanian frontier before converging German and Soviet troops.

The Cernauti chief of police estimated at least 100,000 refugees had crossed the border.

President Ignace Moysa, foreign minister Joseph Beck, and Marshal Edward Smigly-Rydz, army commander, planned to go on to Paris from Bucharest.

Moscow continued for Chelmski, near the Bulgarian frontier, while Beck motored to the Salsk-Medvezia district and Marshal Smigly-Rydz to Biaz in the Carpathian mountains.

There was a bitter argument between Beck and Smigly-Rydz at the station during the farewell in Moscow. The army chief slaked off on an automobile, ignoring Beck's aides.

Poland's "Big Three" now were separated.

JANIS, Poland, Sept. 19.—Tens of thousands of hapless Polish refugees are plodding homeward wearily over the dust roads along which they fled before the advancing Germans.

I saw this tragic picture while en route from Krakow to Jaslo, deep in Polish Galicia.

I saw scores of women carrying babies in their arms, the men trudging along beside them with their eyes fixed on the ground. Many of the children of walking age led the family cow.

Nearly all the refugees were barefoot.

POLISH ARMS CAUGHT IN GIANT MISE EN SCENE

British United Press. Exclusive Cable to The Edmonton Bulletin.

LONDON, Sept. 19.—Caught in a gigantic vise more than 500 miles long, the Polish armies are at the point of collapse today. It was indicated that in the next day or two the world would witness one of the most sudden and most tremendous annihilations in the history of a great modern army. Retreat is cut off on all sides.

POLES WAGING FIGHT AGAINST TERRIFIC ODDS

Eye-Witnesses See Battle As Nazis Advance In Waves

By LOUIS LOCHNER
Associated Press Staff Writer

GDYNIA, Poland, Sept. 19.—Some 2,000 or 3,000 Polish troops desperately were waging a fight against great odds today on the heights west of Gdynia known as Ochotz and in the village of Ochotz.

Eye-witnesses watched the battle from a distance of two miles, on the eastern heights above Gdynia known as Steinberg.

Standing on Steinberg Heights some 80 correspondents saw the German advance in three waves on Ochotz Heights. Each time during an hour's fight they saw some 10 tanks were of badly contested ground.

Each attack was preceded by scouting planes dropping light signals to guide the artillery. They were supported by the cruiser Schleswig-Holstein shooting from Danzig harbor 10½ miles away and later by bombers dropping their deadly cargo upon the Poles.

Polish soldiers seemed to have no anti-aircraft guns, for the planes flew very low and unharmed. Their artillery fire seemed exact, but not so long range as the German.

Later we descended into Gdynia, Poland's modern port. Broken windows, holes in the houses and civilian smashed walls showed that here, too, the war had raged.

Most stores were still closed and business life was stagnant. The occupying army has taken in the morning the principal thoroughfare of the city "Adolf Hitler Strasse."

NEW REGIME TO BE SET UP BY INVADERS

New Polish Government Will Then Sign Peace Treaty

By LEON LEBERMAN
Associated Press Staff Writer

CERNAUTI, Rumania, Sept. 19.—Reports from across the Polish border today said a new pro-German, pro-Russian regime was about to be established in Poland, replacing the government of President Ignace Moysa, now a refugee in Rumania.

Informed persons forecast a new Polish government would immediately sign a peace pact with Germany and Soviet Russia, and accept a re-drawing of Poland's borders.

It was said the new state would be a "buffer" between the two powers.

News mailed from Germany showing the expected partition and new spheres of influence were distributed here.

Polish resistance continued in some sectors.

Dispatches indicated the Poles still were holding out at Warsaw, along the San river west of Lwow, and in the sector between Bialystok and Pultusk.

The desperately fighting Poles also were reported particularly well armed against German and Soviet tanks. Most of the Polish army's heavy armor has been destroyed, or is in the hands of the invaders.

While the Germans were advancing from the west, the east, north and south, the Poles were fighting in the sector between Bialystok and Pultusk.

U. S. Ready To Say 'No' To Germany

By ANDREW HERDING
Associated Press Staff Writer

WASHINGTON, Sept. 19.—Government officials are prepared, it was learned today, for a German peace move in which the United States may be asked to play a part, though indications were the answer to such a request would be "no."

There are many indications, according to well-informed sources here, that Germany, after over-running Poland, will offer to end the war with the western allies.

Fuehrer Hitler, it is believed, may set it up to Great Britain and France that he is willing to withdraw from all of Poland except that which belonged to him before the first great war, and he is willing to guarantee France's borders for any period of 10 years or forever.

He may seek to make it appear that responsibility for continuance of the war lies on the Allies' shoulders. But those who say he may want them that if they choose war, Germany is prepared to resist for 10 years, or perhaps some multiple of 10 years.

DOING GREAT HARM

Canada today is full of armaments, foreign ministers, foreign secretaries, field marshals and admirals who think they know all about this war, said General Ross.

Although the war began only two weeks ago, some people are criticizing Prime Minister Chamberlain and the British navy and army authorities for lack of initiative and aggressive spirit, he declared.

"These people," he said, "are doing a great deal of harm by affecting the morale of the people and the hands of the enemy. The Legion is doing its best to counteract this, and it is time attention was called to this matter."

Roosevelt Invites Republican Chiefs To Neutrality Talk

WASHINGTON, Sept. 18.—In an annual speech which recalled his recent plea for "national unity" on problems arising from the second war, President Roosevelt Monday broadened the coming War Relocation Authority conference on neutrality legislation to include a wide range of the Republican party. Mr. Roosevelt said that he would like to see the meeting Wednesday, the day before Congress convenes in special session to consider the neutrality legislation.

Visitor To Illinois Describes Life At Mooseheart School On Returning Here

A VISIT to Mooseheart, Illinois, a home for underprivileged children which is managed under the auspices of the Loyal Order of Moose, was the delightful experience of Mrs. J. S. Albert, who has recently returned from a visit to the institution.

Describing the school and other buildings, Mrs. Serrag spoke of being shown by a 14-year-old guide around the grounds, through the corridors of the school, and finally to the main building, which is a large, two-story structure. The school is operated by the Moose fraternity as a home and school for the dependent children of its deceased members. J. J. Dwyer, of Pennsylvania founded the school in 1913.

The school has its own post office, river station, telephone central system and about 75 student residences as well as other school buildings, work shops, a heating and power plant, auditorium, stores, administrative buildings, hospital, laboratory for child research, and other buildings.

LABORATORY
While at the school, Mrs. Serrag met a little boy from Lethbridge, Alberta, who seemed wild and excited to meet someone from his own province.

Vocational and academic training are given at Mooseheart, with the vocational opportunities including agriculture, beauty culture, barbering, cafeteria management, drafting, home economics, and other types of employment. There is also a good opportunity for sports and for dramatic activities, which include debating, dramatics, pageants, folk and song, and other types of employment. WHOLEWHEAT MUFFINS

(Makes 12 to 15 muffins 2 1/2 inches in diameter)

Two cups sifted wholewheat flour, 4 teaspoons baking powder, 1 teaspoon salt, 1 egg, beaten, 1 cup milk, 4 tablespoons melted shortening.
Combine the dry ingredients, and mix well. Combine the egg, milk and shortening, and mix well. Add dry ingredients all at one time and stir quickly and vigorously until dry and liquid ingredients are just mixed, and the mixture has a lump appearance. Fill greased muffin pans about 2/3 full of batter, and bake in a hot oven of 425 degrees F. for 15 minutes.

CORNMEAL GRIDDLE CAKES

(Serves 4 to 6)

One-half cup cornmeal, 1 cup flour, 1 teaspoon baking powder, 1 teaspoon salt, 1 egg, well beaten, 3 tablespoons melted butter, 1 tablespoon molasses, 1 tablespoon milk, 2 tablespoons oil to cook.

CORN BREAD

Mix together 1 cup cornmeal, 1 cup flour, 1 teaspoon baking powder, 1 teaspoon salt, 1 egg, well beaten, 3 tablespoons melted butter, 1 tablespoon molasses, 1 tablespoon milk, 2 tablespoons oil to cook.

Take two wet holders and new towels, and the sides only, leaving the front and back open so that the hand may slip through. Thus you will have a muscled unit for taking those hot pans out of the oven without burning the top of your hand against the roof of the oven.

According To Culbertson

Playing duplicate bridge, a dealer must not allow himself to be deceived when he discovers that he is about to bring home a trick. He should be an extra guard, lurking in the bushes which, as valuable as the contract itself. In today's hand dealer was so pleased to drop a certain vital jack and fulfill his contract that he played foolishly thereafter.

3,135,000 Men Carry Nation's Colors In War, Soldiers Are Experts In Battle Technique

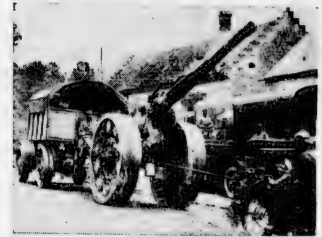

The French infantry numbers 2,000,000. It is one reason why experts say France has Europe's most formidable fighting machine. The nation's army is not only a well-trained fighting force, but also a well-equipped one. France has 10,000 tanks, 3,000 aircraft, and 1,000 submarines. The French infantry is well-trained in battle technique, and the French army is well-equipped with modern weapons.

To a nucleus of formidable artillery machines, left by the World War, France has added new weapons, modern improvements. The latest French 150 has been given a new type of carriage, so that this new machine can move much more rapidly in battle. Of tremendous power is the new 200 mm. howitzer. Anti-aircraft artillery includes powerful searchlights, several regiments of fortress artillery reinforce the Maginot line. The field artillery contains 200,000 men.

Among The Rescued

Her only clothes a jersey, loaned by a seaman, and a carriage robe, 10-month-old Nicola Lubinski, daughter of screen producer Ernest Lubinski, is pictured about the American freighter City of Flint as, with 222 other survivors of the torpedoed liner, she reached Halifax, N.S. With Nicola is her nurse, Constance Strohmer, who, when the torpedo struck, wrapped the sleeping child in a blanket and rushed her to the lifeboat.

Tiny British Torpedo Boats May Rush In Where Huge Warships Fear To Tread In Mine-Infested Baltic

JEALOUSLY guarded from curious eyes, a trim, business-like torpedo boat—general weapon of the great British navy—was unloaded in New York from the deck of the American liner President Roosevelt the other day for inspection trials in this country. What is the role in which the European war will cast this mighty midsize U.S. navy men were asked. Here is the story.

NEW YORK, Sept. 10.—At 10 a.m. in England's long history the British navy has been so powerful. How Naval Convoys Operate

This is a new diagram of a naval convoy. It shows the zigzag pattern of a naval convoy and the role of various ships. The diagram shows a transport and destroyers zigzag at variable speeds. A destroyer uses full speed and turns as bomb rolls off. Depth bomb effective on subs within 300 yards.

Viceroy's Son Under Arms

Second Lord Alastair Buxton, of the Pomona House, Devon, is pictured at the start of a tour which will take him to the various parts of the British Empire. He is accompanied by a large number of soldiers and is expected to visit many of the most important military installations in the Empire.

PIGMY BOATS WILL SHOW WAY TO GIANTS

But if England does make the attempt and succeeds, it will probably, paradoxically, be because of two small squadrons of Japanese pigmy-boats drawing four feet six inches of water cleared the way for the giants of the Home Fleet. For these boats, one of which arrived in New York recently, against the liner President Roosevelt for inspection trials by the U.S. Navy. Mount four torpedo tubes, have a cruising speed of 40 knots, and a range of 1,000 miles.

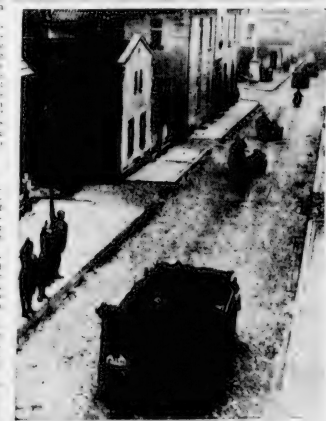

They could pass over the decks of the Japanese, which float low in the water. The pigmy-boats, which float low in the water, could pass over the decks of the Japanese, which float low in the water. TODAY the Eskimos are heading back to Edmonton with two defeat charged up against them in their mission of the Regina and Winnipeg clubs, just as the Regina word for it that they took over the previous the Eskimo from getting a win over the Roughriders on Friday night.

Here's what Dave Dryburgh, sports editor of the Leader-Post, wrote frankly about the Friday game:

"Roughriders won a football game from the luckless Edmonton Eskimos up at Park of Young Village but to move into undisputed second place in the Western conference . . . but their supporters aren't growing about it.

"The score flattered the Riders as they trounced an unfortunate Edmonton team 18-6 before a slim crowd. They uncovered little of the promised bigger-digger as Eskimos clearly outplayed them on the ground; and it was simply a case of the big Regina machine wearing down the blue-and-white invaders, who could easily have thrown a terrific punt into the Riders' camp by cashing in on their opportunities. The Esko broke down the Riders from wall to wall."

The statistics for the game show a marked Esko superiority. Edmonton made 11 first downs against six by Regina, added 187 yards rushing to Regina 113, completed three forwards out of six tries against one out of four by Regina.

By all rights, Calgary ought to have Edmonton one of the public two western fans by defeating the Roughriders. It was the Blue who was pushed Danahy and Cleveland and the Regina with open for the Bruins to follow. If Calgary will only be half that kind in coming to Regina, Cleveland before the Roughriders come here again, the Eskimos will be parading to walking the Griffin Gate.

Spotlighting The Sport Girl

By SUSE Q

In Winnipeg last week under Osborne stadium lights, the St. Boniface girls won their series from Notre Dame in one game 9-3, and the second game, (thirteen innings), 11-0.

For several years now it has been customary at this time to start talking about the organizing of basketball for the fall and winter months in Edmonton, but so far we have been unable to uncover any active interest. Likewise there seems to have been little or no thought given as yet to plans for girls' hockey.

Under postmark of August 24, the last bulletin issued from the Finland Olympic site comes, but full of illustrations of the thousands of dollars already spent in preparations of fields and buildings, which, after perusing late newspaper columns, nobody expects to attend. The bulletin also gives recent times and distances of world athletes, and does not give Canada a place in either the second, third or fourth locations. Of course, since their word has been called that suspension of this preparatory work has been ordered.

Reading of the financial troubles in getting playoff expenses arranged, will it be in order to quote to girls' league the generosity of a known rule of one American league, that a charge of one dollar is assessed on all league games. The dollars are earmarked to go to the treasury of the league, starting at the beginning of the league season, every team has the goal of financial help as an incentive. It worked out better in the season than idea of gate percentage.

The Montreal Star feminine sports column sends out a call for Babe Belanger, former Edmonton Grail, if in the vicinity, as several clubs would like to contact her... reason... obvious.

Myrtle Cook then makes a comment, as a coincidence, that of 13 babies born to female star girls in Edmonton has a little girl.

She then goes on to itemize certain big stars of the fighting ring, the gridiron and men's hockey... Lionel Conacher, the late Babe Siebert, Hootie Smith, Jack Dempsey, Doug Robertson... all daughters... and did not add the name of Eddie Cantor to the celebrities.

The Toronto Ladies' Athletic Club issues a paper for general advancement of club interests, and Miss Gibb calls attention to a recent item: "What do you think we are called Toronto Ladies' For Just Look at Madame President with two black eyes and a broken nose."

"McCauley with a split finger requiring three stitches. Cleopatra with a broken finger... smothered and her broken ankle. The only thing we are sure of is what the other girls look like."

And in Edmonton there are scores who call athletic a busy game!

Conversing with two high school girls yesterday, both expressed the opinion that they would have liked to have had the Buffs trip over the week-end. It turned out that both knew that track and field practices

Incidentally, competitors tell complimentary stories of the efforts made to organize this first of what is hoped to be an annual meet through the province of the inter-scholastic boys' and girls' meet. Over 175 were made and boys were in the majority.

Edmonton girls seem to have done their share, the four attendants bringing home eight first in twelve events, which with their recent provincial wins at Stettin, probably establishing a record for Edmonton girl athletes. Also congratulations are due the few older heads who have helped with their advice and finance.

We understand that preparations are being made for the Edmonton high school track and field meet to be held at Clarke stadium at an early date, and we hope to meet you there. Have any of these track and field leaders thought of a meet under stadium lights in the evening?

Iowa Girls Flash Improved Defensive

GRADS are poised within a single game of scoring a successful defense of the Underwood international basketball challenge trophy as a result of a 48-24 victory they scored over Des Moines last night. A win Wednesday night would give the series to the Grads in three games as a result of the 41-20 victory they scored in the opener on Saturday.

It was a much stronger defensive team that Des Moines put on the arena floor last night in a desperate effort to stop the world champions. While the Grads kept the same number of shots at the inside's basket as in the first game, they had to make them from further out and from more difficult angles.

There was a disappointing crowd on hand of only three or four hundred. This brought an intimation from Coach Percy Page that the coming series with Winona may be cancelled. A definite announcement on this point will probably be made after Wednesday's game.

On the first two plays of the fourth quarter Hanson picked up 20 yards and 25 yards. Hanson threw a forward pass to Hanson on the 40-yard line. Hanson just the ball on down.

Mathewy went around right end for 12 yards to the 48-yard line. After a punt Hanson ran 12 to the 40-yard line. An exchange of kicks left Bombers in possession on 40-yard line.

Bornin plunged for yards. Hanson fired a forward to Nicklin and the latter crossed the line. KAKAT missed the kick for cover.

Winning 48, Edmonton 7. Sutton's forward pass was intercepted by Hanson on the 40-yard line.

GRAD field accuracy fell to 36 per cent last night as Des Moines lightened its defense line. In the opening game of the series the Grads bagged 48 per cent of their field shots. The accuracy of the U. S. girls remained approximately the same, 17 per cent.

Although the Grads appeared to have the whip hand right from the start, the game produced some bright spots of smart basketball. The second period saw Des Moines at their best, scoring 10 points against 12 by the Grads. The Iowa were decisively outscored however in the remaining quarters.

Three Grads led for scoring accuracy with 50 per cent each—Ella Dean, Sophie Brown and Jean Williamson. Noel Macdonald was perfect night on penalty throws with three points for three attempts.
